

DAMARIS ADHIAMBO ADOYO

Field Coordinator – Gender & Social Inclusion | Livestock and Fisheries Systems

Kilifi, Kenya | +254 706 712 373 / +254 728 815 639 | damarisadhiambo98@gmail.com | linkedin.com/in/damaris

PROFESSIONAL SUMMARY

Gender and social inclusion researcher with over 3 years of field coordination experience across fisheries, aquaculture, environmental and public health projects in Kenya, Malawi and Burkina Faso. Skilled in stakeholder engagement, gender-responsive programme design, sex-disaggregated data collection and analysis, and capacity building for community and government partners. Proven track record coordinating multi-county field activities, managing cross-cultural teams with minimal supervision, and translating research into gender-transformative interventions that improve livelihoods for young women, men, and vulnerable groups in natural-resource-dependent communities. Seeking to bring this expertise to ILRI's CASHA project as Field Coordinator – Gender, supporting climate-smart, inclusive livestock value chains for youth across Kenya's ASAL counties.

CORE COMPETENCIES

- Gender-responsive & gender-transformative programme design
- Field coordination & multi-county stakeholder management
- Sex-disaggregated data collection, cleaning & analysis (quantitative & qualitative)
- Community, county & national-level stakeholder engagement
- Monitoring, evaluation, reporting & dissemination
- Capacity building & training of partner staff and community groups
- Survey design (SurveyCTO), NVivo, Atlas.ti, R, Python, Nesstar Publisher
- Cross-cultural collaboration in multi-cultural, low-resource field settings

PROFESSIONAL EXPERIENCE

Research Assistant (Field Coordinator role) | Pwani University – AABS WorldFish Project (Asia-Africa Bluetech Superhighway)

Aug 2024 – Present | Kilifi, Kenya

South-to-South exchange project aiming to reduce fish post-harvest losses by 30% among artisanal fisheries.

- Coordinated field data collection on gender-disaggregated post-harvest losses for men, women, youth and persons with disabilities (PWDs) across the North-East and South-East Monsoon seasons.
- Engaged fisheries stakeholders at national, county and local level, including Beach Management Unit (BMU) heads, to strengthen collaboration and ensure inclusive participation.
- Designed gender-sensitive data collection tools and applied an intersectionality lens to capture the differentiated needs of fishing communities.
- Developed sustainable gender-transformative approaches for actors across the fish supply chain and built partner capacity on gender-sensitive practices.
- Conducted qualitative and quantitative data collection, cleaning, analysis (NVivo, Atlas.ti, R, Python) and reporting; contributed to blogs, success stories and manuscript writing.
- Coordinated a related Integrated Multi-Trophic Aquaculture (IMTA) project with coastal communities, assessing the feasibility, cost-efficiency and sustainability of the technology, and documenting community preference for livestock keeping over mariculture and crop farming — insight directly relevant to livestock-sector livelihood programming.

Research Intern (Field Coordination) | African Population and Health Research Center (APHRC) – PROMOTE Project

Jun 2024 – Dec 2024 | Nairobi, Kenya

Gender equality and social inclusion study on adolescent mothers in Ouagadougou, Burkina Faso and the arid interior of Malawi.

- Led field-level coordination of research activities empowering adolescent mothers through skills training, conditional cash transfers for school re-entry and childcare, and cash-transfer-linked livestock-keeping empowerment.

- Developed the research protocol and qualitative data collection tools for the gender equality and social inclusion component of the study.
- Engaged local stakeholders, community leaders and partner organisations to plan and implement field activities across two countries.
- Led data documentation for Malawi and Burkina Faso datasets using Nesstar Publisher, ensuring data quality and consistency.
- Contributed to manuscript writing on the effects of conditional cash transfer interventions and co-designed the Adolescent Mothers Empowerment Manual used to guide programme delivery.

Environmental Impact Assessment Assistant | *H2 Atlas Africa*

May 2023 – May 2024 | Taita Taveta, Kenya

- Supported feasibility assessment of a green hydrogen production plant (40 MWh capacity to the national grid) intended to support large-scale livestock rearing, farming and energy needs in the county.
- Coordinated and convened a high-level stakeholder meeting chaired by the Governor of Taita Taveta, engaging county leadership on project feasibility and community impact.

Data Assistant Volunteer | *Basic Needs Basic Rights Kenya*

Jan 2023 – Apr 2023 | Kilifi, Kenya

- Supported data management and documentation for community-based programme activities.

Research Assistant | *Pre-SEED Ventures*

Jan 2022 – Dec 2022 | Kilifi, Kenya

- Contributed to Environmental and Social Impact Assessments (in partnership with AWEMAC) spanning large-scale cattle rearing, energy and agricultural sector developments.

Rural Public Health Attaché | *Vipingo Health Centre*

Jun 2019 – Sep 2019 | Machakos County, Kenya

- Conducted weekly meat inspection in local slaughterhouses and livestock pens to screen for bovine disease, applying partial and full condemnation procedures in line with the Public Health Act (Cap. 242) and the Food, Drugs and Chemical Substances Act.

Public Health Attaché | *Athi River Sub-County Hospital*

Jun 2021 – Aug 2021 | Machakos County, Kenya

- Carried out livestock and meat inspection duties to ensure wholesome meat supply and compliance with public health regulations.

Public Health Volunteer | *Kenya Red Cross Society*

Feb 2021 – May 2021 | Migori County, Kenya

- Supported community public health outreach and volunteer coordination activities.

EDUCATION

Master of Science in Environmental Studies (Community Development) — Pwani University, Kenya

Sept 2023 – 2026 (Expected)

Bachelor of Science in Environmental Health — Pwani University, Kenya

Sept 2017 – May 2022

PROFESSIONAL TRAINING & CERTIFICATIONS

- Gender Equality and Social Inclusion Training — WorldFish
- Gender Analysis Research Training — Kenya Marine and Fisheries Research Institute (KMFRI)
- Certificate in Violence Against Girls and Women Research in Africa
- Certificate in Quantitative Data Analysis using R — APHRC
- Qualitative Data Analysis using NVivo — APHRC
- Atlas.ti Training for Qualitative Research — Pwani University
- Manuscript Writing Training — APHRC
- Certificate in Grant Proposal Writing — APHRC

- Certificate in Data Quality Assurance and Management — APHRC
- Environmental Impact Assessment — Pre-Seed Consultancy
- Computer Packages Training — St. Bahkita College, Nairobi

SELECTED OUTPUTS & DISSEMINATION

- Manuscript on gendered analysis of fisheries resources (author).
- Abstract published, International Journal of Postharvest Technology and Innovation; presented at the African Union All-Africa Postharvest Congress and Exhibition on digital dissemination for sustainable food-systems change.
- Fisheries stakeholder engagement workshops and seminars in Kwale, Kilifi and Lamu Counties.
